Professional Summary

Full Stack Developer specializing in React.js, Node.js, Express.js, and MongoDB with experience building scalable web applications and AI-powered projects. Proficient in authentication, database design, and responsive UI development. Solved 300+ Data Structures and Algorithms problems, demonstrating strong problem-solving abilities and a passion for building efficient, user-focused software.

Education

B.Tech in Information Technology, VIIT Pune 2023 – 2027
• CGPA: 8.99/10.0 Pune

Technical Skills

Languages C++, Python, JavaScript, MySQL, TypeScript, HTML5, CSS3	Backend Node.js, Express.js, API Integration, JWT Authentication
Frontend React.js, Tailwind CSS , React Router , Responsive Web Design, Next.js	Database MySQL, MongoDB, Mongoose, Firebase
Tools Git, GitHub, Postman, VS Code, Vercel, Render	Core CS Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Projects

CineAI – AI-Powered Movie Recommendation Platform  , <i>React.js, Node.js, Express.js, MongoDB, Python, TMDB API, JWT Authentication, Tailwind CSS, Render</i> - Developed a full-stack AI-powered movie recommendation platform using the MERN stack with a Python-based recommendation engine, delivering personalized suggestions across 500,000+ TMDB movie entries. - Implemented secure JWT authentication with protected routes, supporting user profiles, favorites, and watchlist management via MongoDB Atlas, reducing unauthorized access attempts to zero. - Integrated 5+ TMDB API endpoints for real-time search, autocomplete, posters, and ratings, achieving sub-500ms response times, and deployed the full stack on Render with 99.9% uptime across React, Express, MongoDB, and Python services.	05/2026 – 06/2026
Streamify – Real-Time Language Learning & Chat Platform  , <i>React.js, Node.js, Express.js, MongoDB, Stream Chat API, JWT, Tailwind CSS, Render</i> - Developed a full-stack language exchange platform connecting users with native speakers across 10+ languages through real-time messaging, video calls, and language-based matching algorithms. - Implemented secure JWT authentication with friend request workflows and integrated Stream Chat API, enabling low-latency messaging under 100ms and video conferencing for up to 50 concurrent users. - Built a fully responsive UI using React.js and Tailwind CSS across 4 breakpoints, achieving consistent cross-device compatibility and reducing UI-related drop-off through intuitive navigation flows.	07/2025 – 08/2025
ResumeForge AI – AI-Powered ATS Resume Optimization Platform  , <i>Next.js, React.js, TypeScript, Tailwind CSS, Gemini API, Vercel</i> - Built an AI-powered resume platform using Gemini API to generate ATS-optimized bullet points, professional summaries, and skill recommendations, reducing average resume revision time by ~60%. - Implemented AI-driven resume-to-job description analysis identifying 10+ missing keywords per scan, helping users improve ATS match scores and tailor resumes to specific job roles. - Designed a responsive UI with Next.js and Tailwind CSS achieving 90+ Lighthouse performance scores, ensuring fast load times and a seamless experience across desktop and mobile devices.	04/2026 – 05/2026

Certifications & Achievements

IBM Full Stack Software Developer Professional Certificate, <i>IBM Skills Network Coursera Issued: Nov 2025 Credential ID: 8LHII7T7LPCC</i> Earned IBM's Full Stack Software Developer Professional Certificate with hands-on training in modern web development, cloud technologies, and DevOps practices.	11/2025
Leetcode  , <i>Competitive Programming & Problem Solving</i> Solved 300+ Data Structures and Algorithms (DSA) problems on LeetCode, demonstrating strong problem-solving abilities and proficiency in core computer science concepts.	12/2024
